4:15 p.m., Monday, March 1, 2004
Sequoia Hall Room 200
(Cookies at 3:45 in 1st Floor Lounge)

Yehuda Bardi
Rutgers University

Deep Talk Plus

Abstract:

The talk will focus on two unrelated topics: 1. a new concept for data-depth in multivariate data analysis (with methodology and applications) and (2) some statistical methods for network data.
